Dear Ms. Sikorski:

As we discussed this afternoon, Burlington Environmental Inc. (BE) requires an extension for submittal of responses to EPA's comments on the "Draft Workplan Chempro Pier 91 RCRA Facility Investigation". The extension is necessary to allow adequate time for BE to review studies and documents which were received only today from the Port of Seattle, after BE's initial request to the Port in mid-January 1992.

EPA's comments were received by BE on February 20, 1992 with comments due within 45 days of receipt (April 3, 1992). As agreed BE will have a two week extension for comment submittal until April 17, 1992. By this letter BE understands EPA's acceptance of the above two week extension.

If you have any questions or require further information, please contact me at (206) 223-7596.

Sincerely,

John Stiller
